

Sports Car Attributes Exploration: A Data-Driven Passion Project

Analyzing Performance, Speed, and Value Metrics for Car Enthusiasts

Interactive Data Visualization (Spring 2025)

Kent State University

By Hari Vinayak Darga

Why I'm Doing This Project

Lifelong Car Enthusiast

Fascinated by performance stories behind sports cars

Passion + Analytics

Blending love for high-performance cars with data visualization

For Fellow Petrolheads

Help enthusiasts understand key specs beyond horsepower

Dataset Overview

Curated Collection

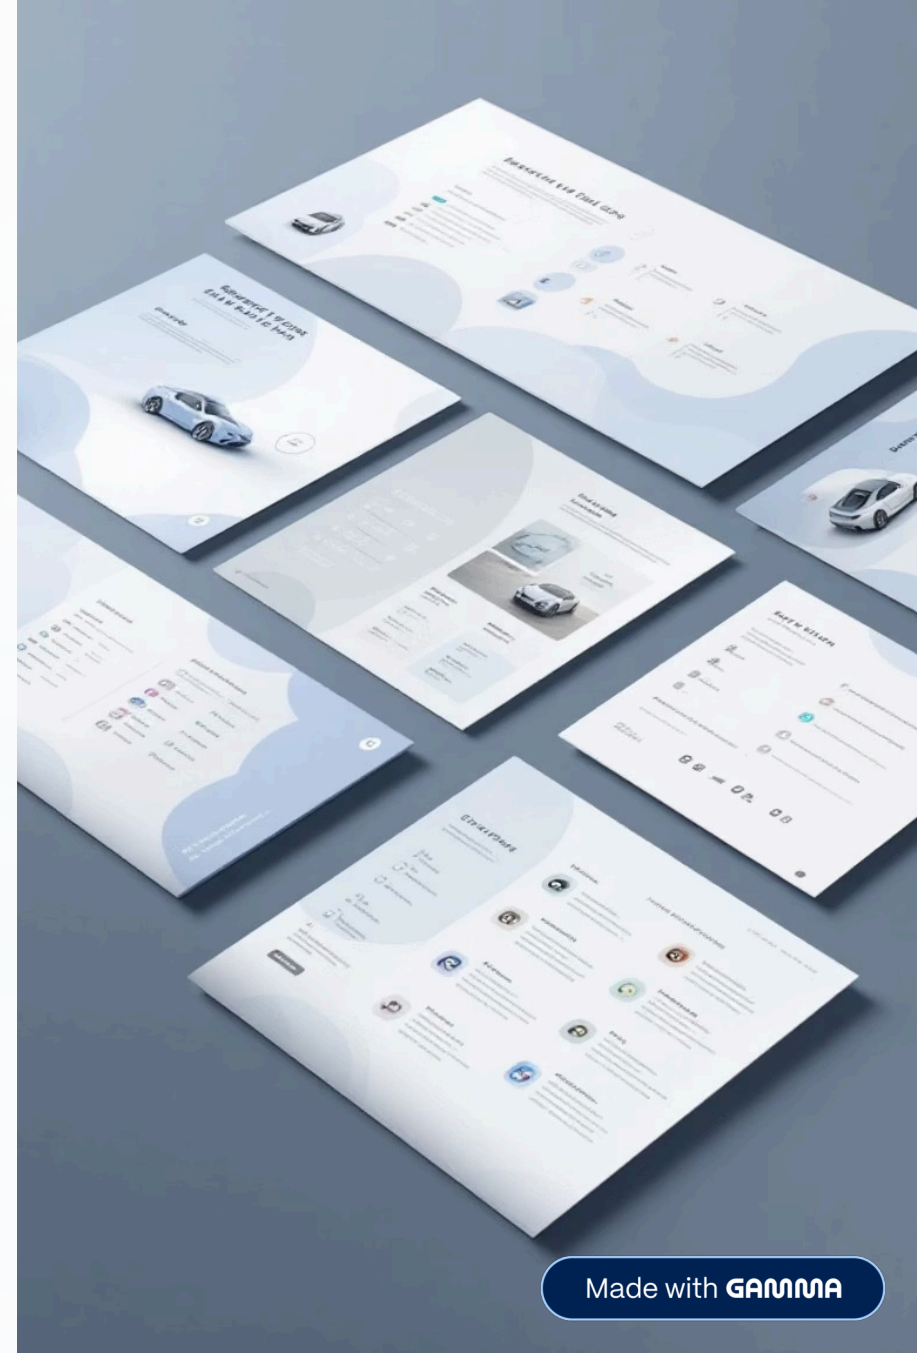

Sports car specs: engine size, horsepower, torque, 0-60 times, price

Real-World Focus

Highlighting interplay between speed, power, and price

Perfect for Storytelling

Detailed, relatable data for car lovers

Why I Chose These Graphs

Enthusiast Focus

Graphs that resonate: speed, power, cost relationships

Visual Comparisons

Scatter plots, heatmaps, and boxplots for easy analysis

Intuitive Storytelling

Avoided overwhelming stats, prioritized impact

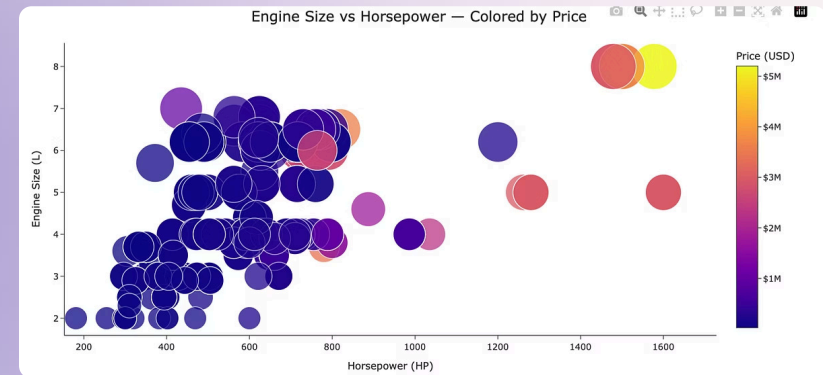

How Power, Price, and Engine Size Interact

This scatter plot reveals how engine size and horsepower relate across sports cars.

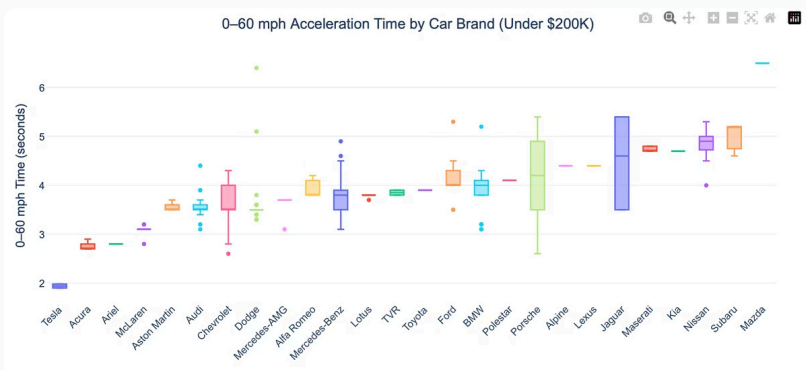

Price is shown by color, adding depth to performance insights.

Not all high horsepower cars have large engines or steep prices.

Performance-value sweet spots emerge for savvy buyers.

0–60 mph Times Compared Across Brands

Performance Leaders

Brands that excel in fast acceleration consistently across models stand out.

Consistency Matters

Some brands show tight ranges, indicating predictable performance across vehicles.

Wide Variation

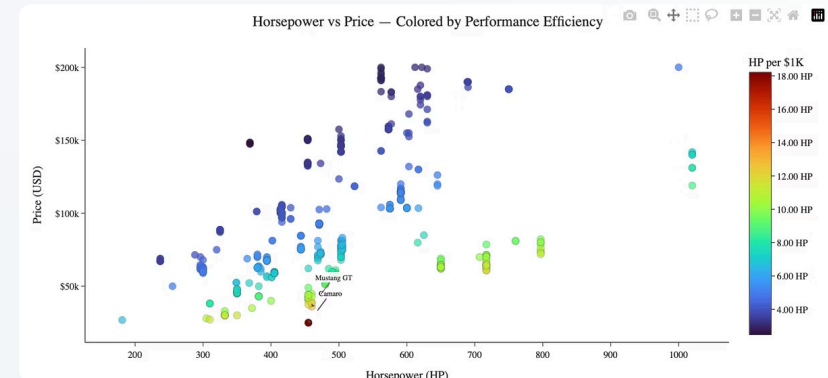

Other brands have broad performance spread, reflecting diverse model capabilities.

Which Cars Give You the Most Power per Dollar?

Introducing a custom metric: horsepower per \$1,000 to assess value.

This metric highlights cars delivering exceptional power efficiency.

Some models outperform pricier rivals, maximizing horsepower for your budget.

Next Steps

Interactive Dashboard

Build Dash app post-presentation

2025 Updates

Add new models and updated market prices
